Work Experience

Wald DX

May 2026 – Present

Full Stack Developer & Project Manager (Intern)

Hiraizumi, Japan / Remote (Cambodia)

- Build **2 client projects** (NDA) in a **3-person team**: **Express.js** backend (APIs, database, system design) and **Next.js** frontend.
- Grew from developer intern into PM: track progress, plan sprints, and unblock **5+ engineers**.
- Gather requirements, present projects, and report progress to clients; turn business needs into engineering tasks.

Angkoro (Coorad)

August 2025 – Present

Full Stack Developer (Backend Focus)

Hybrid, Phnom Penh, Cambodia

- Founding developer of a Telegram Mini App storefront for small Cambodian sellers; now in a **4-person team**.
- **Backend (NestJS)**: auth, store, and commerce features, database schema, and API documentation.
- **Frontend (Next.js)**: landing page and subdomain storefront pages connected to the API.

Coorad

May 2025 – Present

Co-Founder & Product Lead

Hybrid, Phnom Penh, Cambodia

- Led the backend team: set priorities, assigned tasks, guided developers, and ran check-ins every 2 weeks.
- Built the company website backend (**Express.js**, API, schema) and mentored **5 junior developers** who extended it.
- Led product research for the Angkoro MVP: **5 seller interviews**, an **80-respondent survey**, and a **7-platform** competitor analysis. Used the findings to reach the **UniPreneur National Challenge** (Season 3, Khmer Enterprise).

Personal Projects

JobFit | *Express.js*

2026

- Web app where users upload a CV and search jobs across multiple Cambodian job sites. Built the backend in a **4-person team**, including **multi-platform job scraping** and the **AI prompt pipeline**.

PhnomPath Logistics | *Express.js, TypeScript*

2026

- Same-day delivery app that lets online and in-store sellers deliver to customers within hours. Built most backend features in a **3-person team**, including **route optimization** for delivery planning.

Coffee Pickup App | *Express.js, TypeScript*

2025

- Order-ahead coffee app: customers order online and pick up when ready, with no waiting. Built all backend features and designed the system and database schema in a **4-person team**.

Craft Your Prompt | *Next.js, Express.js*

2024

- Turns rough ideas into structured, ready-to-use AI prompts. Built **solo**, end to end: AI prompt pipeline, configuration, and **Polar.sh** payments.

Leadership & Activities

Class President | *Kirirom Institute of Technology*

2024 – Early 2025

- Managed daily class tasks, supported teachers, and resolved issues between students and the school administration.

Project Lead | *Academic & Professional Projects*

2024 – Present

- Lead multiple small and medium-sized project teams across coursework and work, with most projects delivering strong results.

Volunteer Teaching Assistant | *Nagashima & Hiraizumi Elementary Schools, Japan*

May – July 2026

- Helped teachers look after **20 students**, joined daily activities, and shared culture between Cambodia and Japan.
